If additional user(s) demonstrate (through an independent arbitrator or other pertinent means) that the holder of a tower permit has made access to such tower and tower site economically unfeasible, then the permit shall become null and void.
  - (f) <u>Setbacks and Separation</u>. The following setbacks and separation requirements shall apply to all towers and antennas for which a special permit is required; provided, however, that the governing authority may reduce the standard setbacks and separation requirements if the intent of this ordinance would be better served thereby.

  - (2) In locations where the visual impact of the tower would be minimal, the landscaping requirement may be reduced or waived altogether.
  - (3) Existing mature tree growth and natural land forms on the site shall be preserved to the maximum extent possible. In some cases, such as towers sited on large, wooded lots, natural growth around the property perimeter may be sufficient buffer.
- (7) <u>Removal of Abandoned Antennas and Towers</u>. Any antenna or tower that is not operated for a continuous period of twelve (12) months shall be considered abandoned. In such circumstances, the following shall apply:
  - (a) The owner of such antenna or tower or owner(s) of the property where the tower site is located shall remove said antenna and or tower including all supporting equipment and building(s) within ninety (90) days of receipt of notice from the governing authority notifying the owner of such abandonment. If removal to the satisfaction of the governing authority does not occur within said ninety (90) days, the governing authority may remove and salvage said antenna or tower and all supporting equipment and building(s) at the property owner's expense. If there are two or more users of a single tower, then this provision shall not become effective until all users cease using the tower.
  - (b) The applicant for a conditional use permit under this ordinance shall submit a copy of a signed agreement between the property owner and owner of the tower, antenna(s) and supporting equipment and building(s) detailing requirements for abandonment and subsequent removal based on the provisions of 8(a).
